### about the harvest

The 2011 Cabernet Sauvignon was picked at optimum ripeness, with half of the fruit coming from Devon Valley and the balance from Villiera.

### in the cellar

The grapes were fully crushed and fermented in pumpover fermenters at  $\pm 25^{\circ}\text{C}$ . Full MLF occurred in tank before blending and racking to barrels. The wine was matured for just over a year in French oak barrels (including 25 % new) before final blending and bottling.
